Dynamic Radar Cruise Control <1GR-FE>

The diagram illustrates the electrical wiring for a steering system, likely for a vehicle with a steering rack and pinion. It shows the following components and connections:

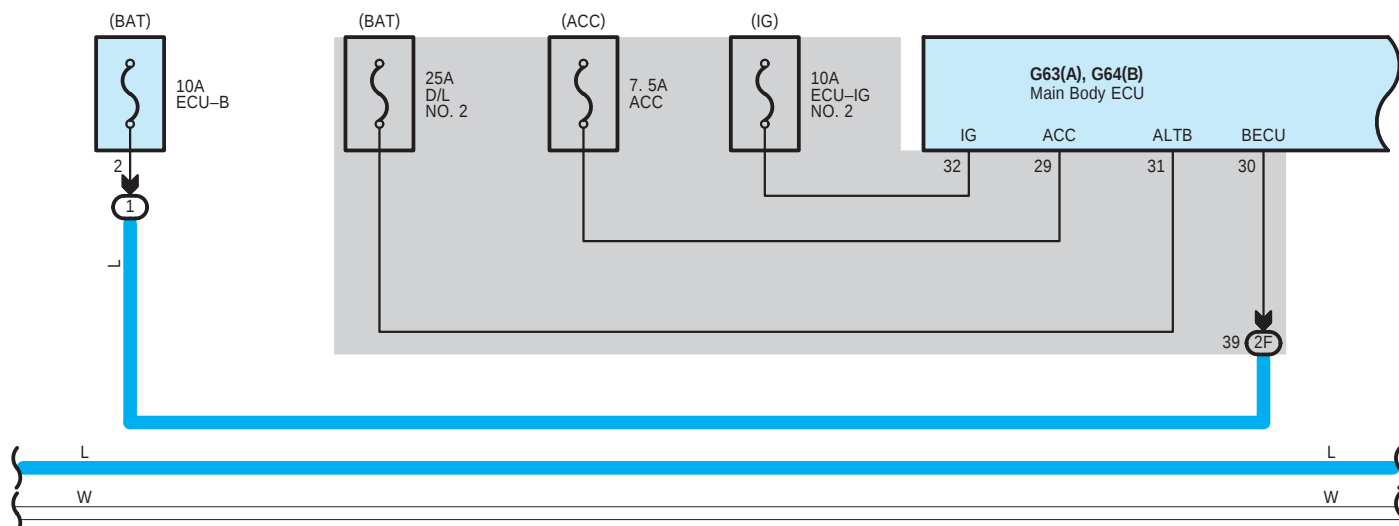

- Wiring Inputs:** W(LHD), R(LHD), GR(LHD), W(RHD), GR(RHD) at the top left; B(LHD), R(RHD), W, V at the bottom left; L, W, L, W, LG at the top right; W, LG, V, R at the bottom right.
- Junction Connectors:**
 - G100 Junction Connector:** Connects input wires to the main harness.
 - G94(A), G132(B) Junction Connector:** A central hub for the steering rack assembly.
 - A72(B), A73(A) Junction Connector:** Connects to the steering sensor.
 - A47(A), A48(B) Short Connector:** A simple two-pin connector.
- Relays/Switches:** GA2 and GA6 are shown in two locations, likely controlling the power windows or door locks.
- Steering Sensor:** G33 Steering Sensor, which provides input to the vehicle's control system.
- Wiring Paths:** The diagram uses color-coded lines to show the path of each wire from the input terminals through the various connectors and components.

A large watermark in Persian is overlaid on the diagram, which appears to be a company logo or name.
